

CREATING SAFER CITIES

FIRST RESPONDER PROGRAMMING GRANTS

As the charitable and philanthropic arm of Motorola Solutions, the Motorola Solutions Foundation partners with organizations that are creating safer cities and thriving communities. We aim to support first responders - the brave men and women who selflessly serve our communities each day - via programs that provide mental wellness and stress management training, scholarships to families of fallen first responders, safety preparedness and response training to schools and leadership development opportunities for underrepresented populations.

With employees located around the globe, Motorola Solutions seeks to benefit the communities where it operates, and through strategic grants, the Motorola Solutions Foundation supports and partners with programs in these communities as well.
